The broken wing of this injured Barn Owl needed surgery to repair it.

This little chap came to us with a broken leg - the vet put it in plaster, and after given time to heal he was back in the air, flying free.

- Helps injured and orphaned wild birds of prey get back to health and returns them to their natural habitat
- Provides safe & secure nest boxes to replace disappearing or dilapidated owl and other bird of prey roosting sites
- Takes the important message about the need for the care & conservation of owls to the public at large and youngsters in particular.
- Provides a National Help Line & website for those needing information about how to deal with injured or orphaned owls.

A member of the S.O.S. team erects a Tawny Owl nest box high in a tree, out of harm's way - one of the 300+ wild owl nest boxes we currently help maintain & monitor in association with the volunteers of the Thornham Owl Project.

You can find out more about the work of S.O.S. at **www.owl-help.org.uk** or by requesting a **FREE** copy of our information book "Saving Britain's Owls" on 0345 680 7897.

Meanwhile we need donations to continue & develop the many free services we offer and projects we undertake. Please lend your support.

TWO WAYS TO HELP

Sponsor an Owl Box

We currently have over 300 wild owl nesting boxes in our rural network which need regularly maintaining, repairing or replacing and to which we'd like to add more. Read overleaf about how you can sponsor the cost or part-cost of a wild owl nest box.

Adopt An Owl

For a donation amount of your choosing, you can help towards the upkeep of the Sanctuary and its work by Adopting An Owl for yourself or as a gift. Please see overleaf for details.

The moment of release - once fit and ready to fend for themselves, we release our charges back to the wild.
